ASSASSIN FISHING

MIDDLE EAST PRODUCT

CATALOGUE

WELCOME TO OUR PRODUCT CATALOGUE

The first Assassin rods were developed in South Africa over twenty years ago and were immediately a success. They very quickly became the leading brand in the shore-based fishery, especially with competitive anglers. The reasons for the success were undoubtedly the quality and performance of the rods. The product range has continually expanded from shore-based rods to spinning, off-shore and fresh water. Our team have ensured that we constantly use the best material and technology available for our rods. We ensure that each new development is thoroughly researched and improved on. During our journey we saw the need to expand the range further in order to address the market need for affordable value for money models whilst still offering optimal performance for those applications.

EDGE 7′

NEW 2026

Specification

Code	AE7H	AE66M	AE7M
Action	Heavy	Medium	Medium
Length	7′	6′6″	7′
Pieces	2	2	2
